Issue: On certain vehicles, the radio may not have been manufactured properly and/or there could be a problem with the radio software. As a result, the rearview camera image may not display correctly or at all. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the radio. The dealer will also update the radio software, as necessary.
