3 recalls listed by Transport Canada for this model year

Lights and instruments

2025574 21 Oct 2025

Issue: On certain vehicles, plugs were not installed over the horizontal headlamp adjusters. As a result, the headlamps may be adjusted horizontally. Canadian regulations don't allow for horizontal headlamp adjustment unless the vehicle is equipped with a built-in aiming device. Safety Risk: Headlamps that aren't properly adjusted could cause reduced visibility and/or glare for oncoming drivers and increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to install plugs over the headlamp adjustment screws.

Label

2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Seats and restraints

2024390 3 Jul 2024

Issue: On certain vehicles, the connector for the driver and/or passenger-front seat belt buckle sensor(s) could fail and cause the seat airbag(s) to deploy with too much force. Note: This problem would cause the airbag warning light to display on the instrument panel or the seat belt reminder chime and warning light to stay on, even if you're buckled. Safety Risk: An airbag that deploys with too much force could increase the risk of injury in a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to replace the connector for the driver and/or passenger-front seat belt buckle sensor(s).

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
