cardog.app/tools/recalls/toyota/tundra/2025

3 recalls listed by Transport Canada for this model year

Visual system

2026026 23 Jan 2026

Issue: Under certain conditions, a software problem could cause the rearview camera image to freeze or not to display when the transmission is shifted into reverse. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall affects both Tundra and Tundra hybrid models equipped with a panoramic view monitor system. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and advise you to take your vehicle to a dealership to update the parking assist electronic control unit software.

Visual system

2025522 1 Oct 2025

Issue: Under certain conditions, a problem with the rearview camera could cause the rearview camera image not to display correctly or at all. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall only affects vehicles equipped with a 14-inch multimedia display. For the Tundra model, this recall affects both Tundra and Tundra hybrid models. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Toyota will notify owners in writing and advise you to take your vehicle to a dealership to update the multimedia display software.

Lights and instruments

2025263 15 May 2025

Issue: On certain trucks, the reverse lamp assemblies may not be sealed correctly. As a result, over time, water could leak into the lamp(s) and cause them not to work. Note: This recall affects both Tundra and Tundra Hybrid models. Safety Risk: Reverse lamps that don't work could cause others not to recognize when a vehicle is backing up, and increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and advise you to take your truck to a dealership to inspect and, if necessary, replace both reverse lamp assemblies. Additionally, the dealer will inspect and, if necessary, repair the wiring for the reverse lamps.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
