10 recalls listed by Transport Canada for this model year

Lights and instruments

2026285 9 Jun 2026

Issue: Under certain conditions, the windshield wiping system may not meet certain requirements of Canadian regulations. Safety Risk: This small error does not affect safety. Corrective Actions: This is not a recall. BMW has made changes to ensure that all new vehicles meet Canadian regulations.

Engine

2025514 25 Sep 2025

Issue: On certain vehicles, the recall repairs completed by a BMW dealer during recall 12 83 24RC (Transport Canada recall no. 2024-444) may not be effective. As a result, certain vehicles require a second repair. On certain vehicles, if you try to start the engine repeatedly, the starter could overheat. If this happens, and nearby components contact the starter, it could cause a fire. Safety Risk: A fire can create the risk of injury. Corrective Actions: BMW will notify owners by mail and advise you to take your vehicle to a dealership to replace the engine starter.

Label

2024544 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Electrical

2024444 1 Aug 2024

Issue: On certain vehicles, if you try to start the engine repeatedly, the starter could overheat. If this happens, and nearby components contact the starter, it could cause a fire. Safety Risk: A fire can create the risk of injury. Corrective Actions: BMW will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle software.

Structure

2022202 20 Apr 2022

Issue: On certain vehicles, a software problem could allow you to close the sunroof remotely without the key fob inside the vehicle. Canadian regulations require the key fob to be in or near the vehicle when closing the sunroof. Safety Risk: A sunroof that can be closed without the key fob in or near the vehicle could create a risk of injury. Corrective Actions: BMW will notify owners by mail and instruct you to take your vehicle to a dealership to reprogram the roof function control unit. Alternatively, you can download an over-the-air update to fix this problem.

Visual system

2021078 18 Feb 2021

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear correctly in the central display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that does not display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: BMW will notify owners by mail and instruct you to take your vehicle to a dealer to update the rearview camera software, if necessary.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
