3 recalls listed by Transport Canada for this model year

Lights and instruments

2025011 14 Jan 2025

Issue: On certain vehicles, a software problem could cause the headlamps and tail lamps to turn off. As a result, the vehicles don't meet certain requirements of Canadian regulations. Note: For the 2025 model year Sorento, this recall also affects hybrid and plug-in hybrid (PHEV) models. Safety Risk: Headlamps and tail lamps that don't work properly cause reduced visibility and make the vehicle less visible to others. Both issues could increase the risk of a crash. Corrective Actions: Kia will notify owners by mail and advise you to take your vehicle to a dealership to update the body domain control unit software.

Label

2024549 15 Aug 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Kia has corrected the compliance label for all new vehicles.

Steering

2024240 24 Apr 2024

Issue: On certain vehicles, the motor driven power steering (MDPS) wiring harness may have been routed incorrectly. As a result, the wiring could become damaged by contact with the steering shaft. If this happens, there could be a reduction or loss of power steering assist. Safety Risk: A loss of power steering assist can cause an increase in steering effort, especially at low speeds, and create the risk of a crash. Corrective Actions: Kia will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, re-route the MDPS wiring harness. If damage is found, the wiring harness will be repaired or replaced as necessary.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
