Label

2026239 19 May 2026

Issue: On certain vehicles, the compliance label located on the B-pillar may not have been installed. As a result, information about the vehicle may be missing. This could lead you to overload the vehicle and cause poor handling or a tire failure. Safety Risk: Poor handling or a tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Tesla will notify owners by email and advise you to take your vehicle to a dealership to inspect and, if necessary, install the compliance label.

Visual system

2025002 7 Jan 2025

Issue: On certain vehicles, a software problem could cause the computer circuit board to short circuit. If this happens, the rearview camera image may not display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Tesla has released an over-the-air software update to fix this problem. Tesla will notify owners by email. Tesla will also identify vehicles in which the computer circuit board experienced a short circuit, or damage that could lead to a short circuit, prior to the release of software versions 2024.44.25.3, 2024.45.25.6 or a later release. If your vehicle is identified, you will be advised to contact Tesla Service to replace the car computer.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
