cardog.app/tools/recalls/toyota/sequoia/2024

4 recalls listed by Transport Canada for this model year

Visual system

2025522 1 Oct 2025

Issue: Under certain conditions, a problem with the rearview camera could cause the rearview camera image not to display correctly or at all. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall only affects vehicles equipped with a 14-inch multimedia display. For the Tundra model, this recall affects both Tundra and Tundra hybrid models. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Toyota will notify owners in writing and advise you to take your vehicle to a dealership to update the multimedia display software.

Tires

2024607 15 Oct 2024

Issue: On certain vehicles, the passenger-side front and rear tires may have been damaged during vehicle assembly. This could cause a sudden loss of air pressure and result in a tire failure. Note: For the Tundra model, this recall affects both Tundra and Tundra hybrid models. Safety Risk: A tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and advise you to take your vehicle to a dealership to inspect and replace the affected tires.

Accessories

2024493 26 Aug 2024

Issue: On certain vehicles, the tow hitch cover on the rear bumper could detach while driving. Safety Risk: A tow hitch cover that detaches from the vehicle could create a road hazard for others and increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and advise you to take your vehicle to a dealership to modify the rear bumper and replace the tow hitch cover.

Powertrain

2024109 21 Feb 2024

Issue: On certain vehicles, a problem with the transmission could cause the vehicle to move forward when the driver shifts to the "N"(Neutral) position and the brakes or parking brake aren't applied. Note: For the Tundra model, this recall affects both Tundra and Tundra Hybrid models. For the Sequoia model, only the Sequoia Hybrid model is affected by this recall. Safety Risk: A vehicle that moves suddenly could create the risk of an injury or a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to update the transmission control unit software.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 8 live listings, as of 27 Oct 2026

[5] Live public dealer listings on Cardog, as of 27 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
