3 recalls listed by Transport Canada for this model year

Structure

2025405 6 Aug 2025

Issue: On certain vehicles, water could enter the tailgate struts and cause them to corrode. If this happens, the struts could fail, and the tailgate could drop suddenly. Safety Risk: A tailgate that drops suddenly could increase the risk of injury. Corrective Actions: Mitsubishi will notify owners by mail and advise you to take your vehicle to a dealership to replace the tailgate struts.

Label

2024554 19 Sep 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words and abbreviations listed on the label for "TIRES", "RIMS", "WITH", "FR" and "RR" and appear in English only, when they should be listed as "TIRES/PNEUS", "RIMS/JANTES", "WITH/AVEC", "FR/AVT" and "RR/ARR". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Mitsubishi has corrected the compliance label for all new vehicles.

Seats and restraints

2020215 15 May 2020

Issue: On certain vehicles, the right-side seat belt in the second-row seating may have an incorrect guide piece installed. As a result, the seat belt may not work properly in a crash. Safety Risk: A seat belt that does not work properly could increase the risk of injury in a crash. Corrective Actions: Mitsubishi will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the right-side seat belt in the second-row. If the wrong guide piece is installed, the seat belt will be replaced.
