3 recalls listed by Transport Canada for this model year

Structure

2025405 6 Aug 2025

Issue: On certain vehicles, water could enter the tailgate struts and cause them to corrode. If this happens, the struts could fail, and the tailgate could drop suddenly. Safety Risk: A tailgate that drops suddenly could increase the risk of injury. Corrective Actions: Mitsubishi will notify owners by mail and advise you to take your vehicle to a dealership to replace the tailgate struts.

Label

2024554 19 Sep 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words and abbreviations listed on the label for "TIRES", "RIMS", "WITH", "FR" and "RR" and appear in English only, when they should be listed as "TIRES/PNEUS", "RIMS/JANTES", "WITH/AVEC", "FR/AVT" and "RR/ARR". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Mitsubishi has corrected the compliance label for all new vehicles.

Seats and restraints

2020317 14 Jul 2020

Issue: On certain vehicles, the seat belt buckle for the right seat in the second-row could be damaged when the seats are folded down. This can cause the seat belt buckle cover to come off. If this happens, the seat belt may not latch properly. Safety Risk: A seat belt that does not latch properly could create an increased risk of injury in a crash. Corrective Actions: Mitsubishi will notify owners by mail and instruct you to take your vehicle to a dealer to modify the center seat belt buckle in the second seating row. A warning label will also be attached to the right seat base and additional instructions will be added to the owner's manual.
