Body	Pickup	Plant	Sterling Heights, Michigan, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ram/1500/2021

14 recalls listed by Transport Canada for this model year

Seats and restraints

2026371 30 Jul 2026

Issue: On certain trucks, the second-row seat belt anchors may not be properly attached. As a result, the seat belt(s) could detach in a crash.

Safety Risk: A seat belt that detaches could increase the risk of injury in a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your truck to a dealership to inspect and, if necessary, secure the second-row seat belt buckle(s) to the body.

Visual system

2026347 16 Jul 2026

Issue: On certain trucks, the passenger-side mirror glass may not be attached properly. As a result, the mirror glass could fall off. Note: This recall only affects certain trucks equipped with a heated trailer tow mirror. Safety Risk: A missing mirror will reduce rear visibility and could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your truck to a dealership to replace the passenger side mirror glass.

Airbag

2025613 6 Nov 2025

Issue: On a small number of vehicles, the steering column control module may not have been manufactured properly. As a result, the driver-front airbag may not inflate in a crash. Note: This problem would cause the airbag warning light to turn on. Safety Risk: An airbag that is turned off could increase the risk of injury in a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the steering column control module.

Visual system

2024596 10 Oct 2024

Issue: On certain trucks, the driver's side mirror glass may not be attached properly. As a result, the mirror glass could fall off. Note: This recall only affects certain trucks equipped with a heated trailer tow mirror. Safety Risk: A missing mirror will reduce rear visibility and could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your truck to a dealership to replace the driver side mirror glass.

Brakes

2024503 5 Sep 2024

Issue: On certain trucks, a software problem could cause the electronic stability control (ESC) system not to work. As a result, the vehicles may not meet certain requirements of Canadian regulations. Note: This problem would cause warning lights for the antilock braking system (ABS), ESC, adaptive cruise control (ACC), and forward collision warning (FCW) to appear on the instrument panel. Safety Risk: An electronic stability control system that doesn't work could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your truck to a dealership to update the antilock braking system (ABS) control module software.

Engine

2023221 13 Apr 2023

Issue: Under certain driving conditions, a problem with the powertrain control module (PCM) could cause the engine to stall. Note: This recall only affects trucks equipped with a 5.7 L eTorque engine. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and instruct you to take your truck to a dealership to update the PCM calibration software.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
