Body	Wagon	Plant	Hiroshima, Japan

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/mazda/mazda5/2009

2 recalls listed by Transport Canada for this model year

Fuel system

2010426 25 Nov 2010

On certain vehicles, water may not have been be removed completely from the harness connector of the fuel pump due to variations in the fuel tank leak check process performed before vehicle assembly. As a result the connector pin may corrode, potentially causing the pin to break and the fuel pump to become inoperative. This could cause the engine to stall and fail to restart, which could increase the risk of crash. Correction: Dealers will inspect the fuel pump connector and if necessary the fuel pump will be replaced and the harness repaired.

Steering

2010274 13 Aug 2010

On certain vehicles with Electro-Hydraulic Power Assist Steering (EHPAS), rust had formed inside the high-pressure pipe on the power steering system during manufacturing due to improper processing. Rust particles may detach from the pipe walls and enter the motorized power steering pump, causing damage to the pump bearings. As a result, gear lubrication may be reduced, leading to an increased load on the motor. Should this happen, there is the potential for the power steering system to enter the fail safe mode in order to prevent overheating, resulting in the power steering warning lamp to light and the motorized pump to stop which could lead to a loss of power assist and the required steering effort will increase. Correction: Dealers will flush the power steering system and repair as necessary.

Window sticker	We do not collect window stickers for this manufacturer.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 1 live listings, as of 29 Nov 2026
[5] Live public dealer listings on Cardog, as of 29 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
