cardog.app/tools/recalls/nissan/leaf/2026

2 recalls listed by Transport Canada for this model year

Seats and restraints

2026324 2 Jul 2026

Issue: On certain vehicles, the rear outboard seat belts may contain defective automatic locking retractors (ALR). As a result, the seat belts may not properly lock to secure a child seat. Note: The vehicle's lower universal anchorage system (UAS) is not affected by this defect and may still be used to secure a child seat. Safety Risk: A seat belt that is used to secure a child restraint but is not properly locked could increase the risk of injury in a crash. Corrective Actions: To reduce the safety risk, Nissan recommends using the vehicle's UAS system when securing a child seat. Nissan will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the rear outboard seat belt(s).

High voltage

2026145 26 Mar 2026

Issue: On certain vehicles, a problem inside the high-voltage battery could cause a short circuit. If this happens, the high-voltage battery could overheat. Safety Risk: A short circuit in the high-voltage battery can create a fire risk, even while the vehicle is parked and turned off. Corrective Actions: To reduce the safety risk, Nissan advises that you should not charge your vehicle and to park the vehicle outdoors and away from other vehicles or structures until the recall repairs have been completed. Nissan will notify owners by mail and advise you to take your vehicle to a dealership, or to contact a dealer to arrange to have the vehicle towed to the dealership, to replace the high-voltage battery module(s) or the battery, as necessary.

Listed for the model year, not checked against your VIN. Nissan confirms which apply.
Check your VIN with Nissan Canada or call a Nissan dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 29 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
