§2 OBLIGATIONS [2]

cardog.app/tools/recalls/nissan/juke/2014

2 recalls listed by Transport Canada for this model year

Electrical

2015282 25 Jun 2015

On certain vehicles, due to a manufacturing defect the start/stop button could stick inside of its housing. If this occurs, vibration could cause the electrical components inside the button to contact repeatedly in quick succession and initiate the emergency engine shut off procedure while the vehicle is in motion. This could result in increased steering and braking effort, a loss of motive power and would disable the supplemental restraint systems (SRS), increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will inspect and repair defective start/stop switch as necessary.

Fuel system

2014539 28 Nov 2014

On certain vehicles, the fuel pressure sensor connected to the engine fuel delivery rail may not have been sufficiently tightened during vehicle assembly. Should the pressure sensor loosen, fuel could leak past a gasket used in the connection between the sensor and the rail. Fuel leakage, in the presence of an ignition source, could result in a fire causing property damage and/or personal injury. Correction: Dealers will inspect the pressure sensor and tighten to specification. Note: This is an expansion of recall 2012-074. Vehicles that were repaired under the previous campaign are not affected because that remedy would have corrected the subject condition.

> Listed for the model year, not checked against your VIN. Nissan confirms which apply.
> Check your VIN with Nissan Canada or call a Nissan dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 8 live listings, as of 28 Nov 2026
[5] Live public dealer listings on Cardog, as of 28 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
