§2 OBLIGATIONS [2]

cardog.app/tools/recalls/nissan/rogue/2022

4 recalls listed by Transport Canada for this model year

Engine

2025356 27 Jun 2025

Issue: On certain vehicles, the engine may not have been manufactured properly. As a result, the engine could make abnormal noises and a warning light may turn on. If you continue to drive the vehicle with these symptoms, the engine could fail. Note: This recall only affects certain vehicles equipped with 1.5 L or 2.0 L variable compression engines. Safety Risk: An engine failure could cause a sudden loss of power to the wheels and/or increase the risk of a vehicle fire. Both issues could increase the risk of a crash or injury. Corrective actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the engine. On certain vehicles, the dealer will also update the engine control module.

Visual system

2022599 21 Oct 2022

Issue: Under certain conditions, a software problem could cause the in-vehicle infotainment system to continuously reboot. If this happens, the rearview camera image will not appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that does not display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Nissan will notify owners by mail and ask you to make an appointment with your local dealer to update the in-vehicle infotainment system software. For vehicles with over-the-air (OTA) update capability, Nissan will send a wireless over-the-air software update to each vehicle.

Seats and restraints

2022498 2 Sep 2022

Issue: On certain vehicles, the left- and right-rear seat belts may not retract to their storage position. Canadian regulations require seat belts to retract fully when not in use. Safety Risk: A seat belt that doesn't retract properly could be difficult to use. Not wearing a seat belt can increase the risk of injury in a crash. Corrective Actions: Nissan will notify owners by mail and instruct you to take your vehicle to a dealership to inspect the left- and right-rear seat belts. They will be replaced, if necessary.

Visual system

2022398 22 Jul 2022

Issue: Under certain conditions, a software problem could cause the in-vehicle infotainment system to reset. If you shift to reverse while the computer is resetting, the rearview camera image will not appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Note: This recall only affects certain vehicles sold to rental fleets. Safety Risk: A rearview camera image that does not display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Nissan will notify owners by mail and ask you to make an appointment with your local dealer to update the in-vehicle infotainment system software. For vehicles with over-the-air (OTA) update capability, Nissan will send a wireless over-the-air software update to each vehicle.

Listed for the model year, not checked against your VIN. Nissan confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 31 live listings, as of 29 Oct 2026

[5] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
