3 recalls listed by Transport Canada for this model year

Label

2024549 15 Aug 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Kia has corrected the compliance label for all new vehicles.

Airbag

2023652 8 Dec 2023

Issue: On certain vehicles, the side curtain airbag(s) may not have been manufactured properly. As a result, the side curtain airbag(s) could inflate without a crash. Safety Risk: A side curtain airbag that inflates suddenly without a crash could create a risk of injury. Corrective Actions: Kia will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the left and/or right-side curtain airbag module(s).

Powertrain

2023421 1 Aug 2023

Issue: On certain vehicles, the circuit board in the electric oil pump assembly for the transmission may be damaged. As a result, the circuit board could short circuit and overheat. Safety Risk: A short circuit could create the risk of a fire. Corrective Actions: Kia will notify owners by mail and advise you to take your vehicle to a dealership to inspect the transmission electric oil pump assembly, and replace it as necessary. Kia recommends parking your vehicle outside and away from other vehicles or buildings until the recall repairs are completed.
