5 recalls listed by Transport Canada for this model year

Label

2024549 15 Aug 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Kia has corrected the compliance label for all new vehicles.

Seats and restraints

2017469 28 Sep 2017

On certain vehicles equipped with heated cloth seats, over time, the wiring for the seat heater mats could become damaged. If a heating mat were to be damaged, it could melt a small hole in the lower portion of the seat base or backrest, which could result in injury to the seat occupant. Correction: Dealers will attach a patch on the seat cushion and seat back heater bridge side and adjust the positioning. If there are traces of burning or melting during the inspection, dealers will replace the heater with a new one and adjust the bridge wire side positioning.

Airbag

2014591 23 Dec 2014

On certain vehicles equipped with sunroofs, headliner plates may detach from the headliner during a side curtain airbag deployment and could strike vehicle occupants. This could increase the risk of injury. Correction: Dealers will apply adhesive strips to the headliner plates.

Brakes

2013098 3 Apr 2013

On certain vehicles, the stop lamp switch may fail and cause intermittent operation of the brake lights. Failure of the brake lights to illuminate when the brake pedal is depressed could result in a crash causing property damage and/or personal injury. Correction: Dealers will replace the switch.

Electrical

2010290 2 Sep 2010

On certain vehicles the wiring harness used for the Advanced Lighting Speakers located in the front door trim panels may have been improperly soldered. As a result, when the lights are illuminated under certain conditions, an electrical short may ensue and can result in a fire. Correction: Dealers will replace the affected harness.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
