2 recalls listed by Transport Canada for this model year

Label

2024549 15 Aug 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Kia has corrected the compliance label for all new vehicles.

Structure

2016274 2 Jun 2016

On certain vehicles, the secondary hood latch could corrode, and may result in the mechanical binding of the latch. This could cause the secondary hood latch to remain in the open position when the hood is closed. If the vehicle were to be driven with the primary hood latch disengaged, there is a potential that the secondary hood latch may not hold the hood closed as designed while the vehicle is in motion. If this were to occur, it could compromise the driver's ability to see the road and its users, as well as cause damage to the windshield. These issues could result in a crash causing injury and/or property damage. Correction: Dealers will replace the secondary latch with an improved secondary latch with an enhanced corrosion coating.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
