Trim	Not in the decode	Maker	FORD MOTOR COMPANY
Body	Incomplete - Chassis Cab	Plant	Kansas City, Missouri, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ford/transit/2019

3 recalls listed by Transport Canada for this model year

Visual system

2025449 3 Sep 2025

Issue: On certain vehicles, there could be a problem with the connections inside the rearview camera. As a result, the rearview camera image may not display correctly or at all when the transmission is shifted into reverse. Note: For certain models, this recall also affects incomplete vehicles. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the rearview camera.

Visual system

2021396 24 Jun 2021

Issue: On certain vans, the pivot points for the side mirrors could rust. If this happens, the mirrors could become loose or fall down. Note: This recall only affects vans equipped with short arm, manual fold, power-adjustable outside rearview mirrors. The recall applies to vehicles originally sold or currently registered in areas of heavy road salt usage (Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland & Labrador). Safety Risk: A side mirror that loosens or separates could reduce rear visibility and increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and instruct you to take your vehicle to a dealer to replace the side mirrors.

Wheels

2021270 7 May 2021

Issue: On certain vehicles, the flanges on the rear axle shafts may not be flat. As a result, the wheel nuts could loosen and the wheel studs could break. If this happens, a wheel could come loose or separate from the vehicle. Note: This recall only affects vehicles with single rear wheels, a 4.10:1 axle ratio and aluminum alloy wheels. Safety Risk: A wheel separation could cause a loss of control and increase the risk of a crash. A wheel that separates could also hit another person or vehicle. Corrective Actions: Ford will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the rear axle shafts. The dealer will replace the rear axle shaft assembly, axle shaft mounting bolts, and rear wheel lug nuts, as necessary.

Listed for the model year, not checked against your VIN. Ford confirms which apply.
Check your VIN with Ford Canada or call a Ford dealer with your VIN.

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 66 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
