cardog.app/tools/recalls/ford/transit/2022

15 recalls listed by Transport Canada for this model year

Visual system

2025725 18 Dec 2025

Issue: On one vehicle, the recall repairs completed by a Ford dealer during recall 25S68 (Transport Canada recall no. 2025-329) may not have been done correctly. As a result, another repair is required. On certain vehicles, the rearview camera image will not display when the transmission is shifted into reverse gear. Note: This recall only affects certain Transit chassis cab and incomplete vehicles not equipped with the SYNC system. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Ford will notify the owner by mail and advise them to take their vehicle to a dealership to update the audio control module configuration settings.

Visual system

2025360 27 Jun 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Canadian regulations require the rearview image to display when the vehicle is reversing. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to update the SYNC software.

Visual system

2025329 13 Jun 2025

Issue: On one vehicle, the recall repairs completed by a Ford dealer during recall 22S18 (Transport Canada recall no. 2022-147) may not have been done correctly. As a result, a second repair is required. On certain vehicles, the rearview camera image will not display when the transmission is shifted into reverse gear. Note: This recall only affects certain Transit chassis cab and incomplete vehicles not equipped with the SYNC system. Safety Risk: A rearview camera image that does not display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Ford will notify the owner by mail and instruct them to take their vehicle to a dealer to update the audio control module configuration settings.

Lights and instruments

2025278 23 May 2025

Issue: On certain vehicles, the recall repairs completed by a Ford dealer during recall 22C11 (Transport Canada recall no. 2022-307) may not have been done correctly. As a result, a second repair is required. On certain vehicles, the warnings, tell-tales and gauges may not display properly in the instrument panel cluster. Note: This recall only affects vehicles equipped with a 4.2" monochromatic instrument panel cluster. Safety Risk: Warnings, tell-tales and gauges that don't display properly could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to update the instrument panel cluster software.

Visual system

2025260 9 May 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display or to freeze when the transmission is shifted into reverse. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the SYNC software. Alternatively, you may schedule an appointment to have the update performed at a Ford dealership.

Visual system

2025223 24 Apr 2025

Issue: On certain vehicles equipped with a 360-degree camera, a software problem could cause the rearview camera image not to appear on the SYNC display screen. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall replaces Transport Canada recall no. 2023-477. Vehicles that were repaired under that recall don't require this repair. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to replace the rearview camera, and modify the camera wire retention as necessary. Some Transit models will also require a software update.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 35 live listings, as of 29 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 29 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
