cardog.app/tools/recalls/land-rover/range-rover/2024

7 recalls listed by Transport Canada for this model year

High voltage

2026442 17 Sep 2026

Issue: On certain vehicles, the DC/DC converter could fail. As a result, the 12 V battery would not charge and a red "Stop Safely Electrical Fault Detected" warning message would be displayed. If this happens, and you continue to drive the vehicle, there could be a loss of power to the wheels and/or the vehicle's lights could turn off. Note: This recall is an expansion of Transport Canada recall no. 2026-196. Vehicles repaired under that recall don't require this repair. This recall only affects certain mild hybrid electric vehicles (MHEV). Safety Risk: A loss of power to the wheels could increase the risk of a crash. Exterior lights that don't work may make the vehicle less visible to others and increase the risk of a crash. Corrective Actions: Land Rover will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle load balancing software.

Airbag

2026292 12 Jun 2026

Issue: On certain vehicles, the connector for the driver-front airbag in the steering wheel could corrode. As a result, the driver-front airbag may not inflate in a crash. Note: This problem would cause the airbag warning light to turn on. Safety Risk: An airbag that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: Land Rover will notify owners by mail and advise you to take your vehicle to a dealership to apply grease to the driver's airbag connector terminals.

High voltage

2026196 17 Apr 2026

Issue: On certain vehicles, the DC/DC converter could fail. As a result, the 12 V battery would not charge and a red "Stop Safely Electrical Fault Detected" warning message would be displayed. If this happens, and you continue to drive the vehicle, there could be a loss of power to the wheels and/or the vehicle's lights could turn off. Note: This recall only affects certain mild hybrid electric vehicles (MHEV). Safety Risk: A loss of power to the wheels could increase the risk of a crash. Exterior lights that don't work may make the vehicle less visible to others and increase the risk of a crash. Corrective Actions: Land Rover will notify owners by mail. The corrective actions for this recall are under development.

Structure

2026074 19 Feb 2026

Issue: On certain vehicles, the side trim(s) on the panoramic sunroof may not be properly attached. As a result, the trim(s) could loosen and separate from the vehicle. Safety Risk: Trim that detaches from the vehicle could create a hazard for others and increase the risk of a crash. Corrective Actions: Land Rover will notify owners by mail and advise you to take your vehicle to a dealership to secure the panoramic roof side trims.

Engine

2024599 10 Oct 2024

Issue: This recall is for certain replacement engines. The oil filter housing may not have been manufactured properly. Over time, the housing could crack and cause oil to leak onto hot components in the engine compartment. Safety Risk: Oil that leaks onto hot components can create the risk of a fire. Additionally, an oil leak could create a hazard for others and increase the risk of a crash. Corrective Actions: None of the affected engines have been installed in vehicles. Land Rover will instruct dealers to replace the oil filter housing assembly before each engine is installed.

Visual system

2024514 12 Sep 2024

Issue: On certain vehicles, the near field sensor module could overheat. If this happens, the surround camera system could reset, and the camera image(s) may not display. Note: This recall only affects vehicles equipped with a 3D surround camera system. Safety Risk: Camera images that don't display could reduce a driver's ability to see around the vehicle. This could increase the risk of a crash. Corrective Actions: Land Rover will notify owners by mail and advise you to take your vehicle to a dealership to replace the near field sensor module.

Window sticker We do not collect window stickers for this manufacturer.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 11 live listings, as of 27 Oct 2026
[5] Live public dealer listings on Cardog, as of 27 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
