§2 OBLIGATIONS [2]

cardog.app/tools/recalls/mercedes-benz/s-class/2021

13 recalls listed by Transport Canada for this model year

Other — 2024641 — 25 Oct 2024

Issue: On a small number of vehicles, a software problem could cause the emergency calling (eCall) system not to work properly when there's a crash or when the SOS button is pressed. Safety Risk: If the eCall system doesn't work in an emergency situation, there could be a delay in response from emergency services. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to update the communication module software.

Fuel system — 2023672 — 15 Dec 2023

Issue: On certain vehicles, the fuel delivery module could fail. If this happens, the engine may run rough or may not start. This could also result in a sudden loss of engine power while driving. Note: This is an expansion of Transport Canada recall 2023-353. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to replace the fuel delivery module.

Fuel system — 2023353 — 23 Jun 2023

Issue: On certain vehicles, the fuel delivery module could fail. If this happens, the engine may run rough or may not start. This could also result in a sudden loss of engine power while driving. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to replace the fuel delivery module.

Structure

2023169 24 Mar 2023

Issue: On a small number of vehicles, the engine compartment firewall may not be sealed correctly. This could allow water to leak inside the vehicle. If this happens, electrical components could short circuit. This could also affect the Pre-Safe system or cause the vehicle not to start. Note: If this issue is present in your vehicle, you may notice wet carpets in the driver or passenger footwell and fogged windows. Safety Risk: A short circuit could cause emergency systems not to work, which could increase the risk of injuries in a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and instruct you to take your vehicle to a dealership to reseal the front wall.

Visual system

2022367 8 Jul 2022

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the central display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that does not display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and instruct you to take your vehicle to a dealership to update the MBUX multimedia system software.

Other

2022263 20 May 2022

Issue: On certain vehicles equipped with the emergency calling (eCall) system, the SIM card for the communications module could disable itself. If this happens, the eCall system would not work properly when there is a crash or when the SOS button is pressed. Safety Risk: If the eCall system does not work in an emergency situation, there could be a delay in response from emergency services. Corrective Actions: Mercedes-Benz will notify owners by mail and send a wireless over-the-air software update to each vehicle. If the update cannot be completed successfully, you will be notified to schedule an appointment to have the update performed by a dealer.

7 more on the model-year record, cardog.app/tools/recalls/mercedes-benz/s-class/2021

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] Cardog market quote, same configuration, 9 live listings, as of 29 Oct 2026

[4] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
