Body	Convertible	Plant	Neckarsulm, Germany

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/audi/a5/2011

2 recalls listed by Transport Canada for this model year

Airbag

2018059 30 Jan 2018

On certain vehicles, long-term exposure to high absolute humidity and temperature, combined with high temperature cycling, could eventually degrade the propellant contained in the driver frontal airbag. This could cause the airbag to deploy with more force than normal. As a result, if the vehicle were involved in a collision that warrants airbag deployment, fragments could be propelled toward vehicle occupants, and the airbag assembly could be damaged, preventing proper function. These issues could increase the risk of injury. Correction: Dealers will replace the driver frontal airbag inflator. Note: Canadian climate results in the propellant degrading slowly. The recall is being conducted as a precaution to address future risk, and is expected to replace airbag inflators before their function would be affected. Additional Note: For the Audi A4, S4, A5 and S5 models, this campaign only affects the Cabriolet versions of these models. Also to Note: This recall supersedes the Audi brand vehicles subject to recall 2016-064 (Audi Recall 69N1) and 2016-065 (69N2). Audi brand vehicles completed under the previous 2016-064 and 2016-065 recalls require repair under this recall, as the previous recall remedy was an interim repair. Interim repair parts must be replaced with final repair parts.

Airbag

2016064 9 Feb 2016

On certain vehicles, the driver frontal airbag inflator could produce excessive internal pressure during airbag deployment. Increased pressure may cause the inflator to rupture, which could allow fragments to be propelled toward vehicle occupants, increasing the risk of injury. This could also damage the airbag module, which could prevent proper deployment. Failure of the airbag to fully deploy during a crash (where deployment is warranted) could increase the risk of personal injury to the seat occupant. Correction: Dealers will replace the front driver airbag inflator. Note: This campaign only affects the Audi A5 and Audi S5 Cabriolet models.

Listed for the model year, not checked against your VIN. Audi confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
