Body	Sport Utility Vehicle	Plant	Chicago, Illinois, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ford/explorer/2011

8 recalls listed by Transport Canada for this model year

Structure

2024026 22 Jan 2024

Issue: On certain vehicles, the exterior A-pillar trim on either side of the windshield may not be properly attached. As a result, the trim(s) could loosen and separate from the vehicle. Safety Risk: Trim that detaches from the vehicle could create a road hazard for others and increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the A-pillar trim.

Suspension

2019280 11 Jun 2019

Issue: On certain vehicles, the rear suspension toe link(s) could break. This could cause a sudden loss of vehicle stability. Note: This problem is more likely to occur on vehicles that are driven on rough roads. Safety Risk: A loss of vehicle stability could cause a loss of control and increase the risk of a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to install improved rear suspension toe links.

Suspension

2017577 28 Nov 2017

On certain vehicles operated in Alberta, Saskatchewan and Manitoba, soil properties unique to these areas could cause an accumulation of soil to occur at the attachment point of the rear suspension toe link. This could impede the toe link's travel, causing bending stresses and potential fracture. A fractured toe link would affect vehicle handling and could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace the toe links with revised parts. Note: This is an expansion of recall 2017-224.

Structure

2015127 24 Mar 2015

On certain vehicles, the return spring within the interior door handle assembly could become unseated, resulting in an interior handle that does not return to the fully stowed position after actuation. This could allow a door to unlatch during a side impact crash, which could increase the risk of injury to a seat occupant. Correction: Dealers will inspect, and repair or replace the interior handles as necessary.

Steering

2014194 28 May 2014

On certain vehicles, a fault in the Electric Power Steering (EPS) system could result in an immediate loss of power steering assist without warning to the driver. This would unexpectedly increase the steering effort force necessary to steer the vehicle at lower vehicle speeds, which could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will affect repairs as necessary and will reprogram the EPS controller with updated software. In the event that an EPS fault occurs, this updated software would allow for continued EPS function while displaying visual and audible warnings to the driver until the end of the drive cycle.

Steering

2014002 8 Jan 2014

A safety defect may exist in certain service parts installed after September 1st, 2013. Replacement steering gear assemblies could contain a defect potentially resulting in steering lockup and an inability to steer the vehicle. This would increase the risk of a crash causing injury and/or damage to property. Correction: Owners of affected vehicles will be notified based on warranty and dealer service records and affected parts will be replaced.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 6 live listings, as of 27 Nov 2026
[5] Live public dealer listings on Cardog, as of 27 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
