Make	Mercedes-Benz	Fuel	Gasoline
Model	GLC-Class	Drive	Not in the decode
Trim	GLC300 Base-4M	Maker	Mercedes-Benz Cars
Body	Sport Utility Vehicle	Plant	Germany

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/mercedes-benz/glc-class/2016

9 recalls listed by Transport Canada for this model year

Structure — 2023673 — 15 Dec 2023

Issue: On certain vehicles, the plastic panel located between the windshield and the panoramic sunroof may not have been attached correctly during a prior service repair. Over time, the panel could loosen and separate from the vehicle. Note: This is an expansion of Transport Canada recall 2021-170. Safety Risk: A panel that detaches from a moving vehicle could create a road hazard for others and increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to replace the front roof panel.

Structure — 2021170 — 22 Mar 2021

Issue: On certain vehicles, the plastic panel located between the windshield and the panoramic sunroof may not have been attached correctly during a prior service repair. Over time, the panel could loosen and separate from the vehicle. Safety Risk: A panel that detaches from a moving vehicle could create a road hazard for others and increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and instruct you to take your vehicle to a dealer to replace the front roof panel.

Steering — 2018724 — 20 Dec 2018

On certain vehicles originally sold or currently registered in areas of heavy road salt usage during winter months (Quebec, New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland & Labrador), the bolts that attach the electric power steering assist motor to the steering gear housing may corrode and break. This could cause a loss of power steering assist. The resulting increase in steering effort could create the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace the mounting bolts and apply a corrosion protection coating to the gear housing and bolts. If the bolts bolt cannot be removed, a replacement steering gear will be installed.

Seats and restraints

2018541 3 Oct 2018

On certain vehicles, the seat belt latch plate in the second seating row outboard seats might retract into the area between the C-pillar paneling and the rear side paneling. This could hinder the access to the seat belt latch plate for the outboard seat occupants. If a rear seat passenger does not fasten the seat belt, the risk of injury in the event of a crash could increase. Correction: Dealers will add a buffer element to the C-pillar paneling. Note: This is an expansion of recall 2018-136.

Seats and restraints

2018136 16 Mar 2018

On certain vehicles, the seat belt latch plate in the second seating row outboard seats might retract into the area between the C-pillar paneling and the rear side paneling. This could hinder the access to the seat belt latch plate for the outboard seat occupants. If a rear seat passenger does not fasten the seat belt, the risk of injury in the event of a crash could increase. Correction: Dealers will add a buffer element to the C-pillar paneling.

Lights and instruments

2017645 19 Dec 2017

Certain vehicles may not comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 108 - Lighting System and Retroreflective Devices. During the manufacturing process, the aim of the LED headlamps may have been incorrectly adjusted, which could cause them to fail to meet the requirements of the standard. Improperly aimed headlamps may reduce night time forward visibility, which could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will check the headlamp adjustment on the affected vehicles and adjust it, if necessary.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] Cardog market quote, same configuration, 8 live listings, as of 29 Oct 2026

[4] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
