1 recall listed by Transport Canada for this model year

Lights and instruments

2026451 23 Sep 2026

Issue: On certain vehicles, the headlamp assemblies may not have been manufactured properly. As a result, on Super Duty models equipped with LED reflector headlamps, the daytime running lamps (DRLs), parking lamps, low beams, and/or high beams may be dim or may not work. On Super Duty models equipped with LED projector headlamps, the daytime running lamps (DRLs) and parking lamps may be dim or may not work. For Expedition models, the low beams and/or high beams may be dim or may not work. Note: This recall only affects vehicles equipped with LED headlamps. Safety Risk: Headlamps, parking lamps and/or daytime running lights (DRLs) that don't work properly could reduce visibility and make the vehicle less visible to other road users. This could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect and replace the headlamp(s), as necessary.

Listed for the model year, not checked against your VIN. Ford confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
