1 recall listed by Transport Canada for this model year

Visual system 2024365 27 Jun 2024

Issue: On certain vehicles, a software problem could cause the rearview camera image to be delayed or not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to update the infotainment software.

Listed for the model year, not checked against your VIN. Volkswagen confirms which apply.
