Issue: On a small number of Golf R models, the incorrect windshield wiper software may have been installed during production. As a result, the windshield wipers may not work. Safety Risk: Windshield wipers that don't work could affect a driver's visibility and increase the risk of a crash. Corrective Actions: Volkswagen will notify owners by mail and instruct you to take your vehicle to a dealership to update the body control module (BCM) software.

Airbag

2022403 27 Jul 2022

Issue: On certain vehicles, the passenger-front airbag inflator could rupture when the airbag deploys in a crash. If this happens, the airbag may not inflate properly and small pieces of metal could be propelled toward vehicle occupants. Safety Risk: An airbag inflator that ruptures can create a risk of injury or death. Corrective Actions: Volkswagen and Audi will notify owners by mail and instruct you to take your vehicle to a dealer to replace the passenger-front airbag module.

Fabrics

2021326 26 May 2021

Issue: On certain models, the chrome layer could peel off of the trim located around the gear shift cover. If this happens, sharp edges can be created. Safety Risk: Exposed sharp edges can create the risk of a cut. Corrective Actions: Volkswagen will contact owners by mail and instruct you to take your vehicle to a dealer to replace the gear shift cover trim frame.
