Body	Sedan	Plant	Gent Plant, Belgium

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/volvo/s60/2016

3 recalls listed by Transport Canada for this model year

Seats and restraints — 2020298 — 30 Jun 2020

Issue: On certain vehicles, the flexible steel cable that attaches the seat belt to the outside of the front seats may weaken over time. As a result, the seat belt could detach. Safety Risk: A seat belt that detaches in a crash could create an increased risk of injury. Corrective Action: Volvo will notify owners by mail and instruct you to take your vehicle to a dealer to replace the front-outboard seat belt anchors.

Seats and restraints — 2016534 — 28 Oct 2016

On certain vehicles, the front passenger seatbelt buckle stud may not have been punched correctly during manufacturing. This may cause a separation between the buckle and the seat belt bracket, which could result in the belt not adequately restraining the seat occupant in a crash, increasing the risk of injury and/or damage to property. Correction: Dealers will inspect the front passenger seat belt buckle stud, and replace the seatbelt buckle as necessary.

Electrical — 2015388 — 2 Sep 2015

On certain vehicles with an automatic stop-start function, in certain stop and go driving situations, the starter motor fuse may become overloaded (blown fuse). This could lead to the inability to restart the engine following an engine shutdown by the start-stop system, increasing the risk of crash causing injury in a traffic situation. Correction: Dealers will replace the starter motor fuse with a higher amperage rated fuse.

Listed for the model year, not checked against your VIN. Volvo confirms which apply.
Check your VIN with Volvo Canada or call a Volvo dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 4 live listings, as of 27 Oct 2026
[5] Live public dealer listings on Cardog, as of 27 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
