cardog.app/tools/recalls/maserati/grecale/2023

5 recalls listed by Transport Canada for this model year

Lights and instruments

2025579 23 Oct 2025

Issue: On certain vehicles, plugs were not installed over the horizontal headlamp adjusters. As a result, the headlamps may be adjusted horizontally. Canadian regulations don't allow for horizontal headlamp adjustment unless the vehicle is equipped with a built-in aiming device. Safety Risk: Headlamps that aren't properly adjusted could cause reduced visibility and/or glare for oncoming drivers and increase the risk of a crash. Corrective Actions: Maserati will notify owners by mail and advise you to take your vehicle to a dealership to install plugs over the headlamp adjustment screws.

Visual system

2025078 17 Feb 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Maserati will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the radio software. Alternatively, you may schedule an appointment to have the update performed at a Maserati dealership.

Visual system

2024717 26 Nov 2024

Issue: On certain vehicles, a software problem could cause the rearview camera image to not appear on the display screen. Canadian regulations require the rearview image to display when the vehicle is reversing. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Maserati will notify owners by mail and advise you to take your vehicle to a dealership to update the central vision processing/park assist module software.

Label

2024553 18 Sep 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. Maserati has corrected the tire and loading information label for all new vehicles.

Label

2024329 31 May 2024

Issue: On certain vehicles, the tire and loading information label may have been printed in English only. Canadian regulations require information on the label to be listed in both English and French. Safety Risk: A label that is missing information in French could cause confusion. Corrective Actions: Maserati will notify owners by mail and advise you to take your vehicle to a dealership to replace the tire and loading information label.

> Listed for the model year, not checked against your VIN. Maserati confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 8 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
