Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Lamborghini will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle software.

Issue: On a small number of vehicles, the infotainment main unit in the center console could fail. If this happens, the display screen will not turn on when you start the vehicle and the rearview camera image will not appear when backing up. Canadian regulations require the rearview image to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that does not display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Lamborghini will notify owners by mail and instruct you to take your vehicle to a dealership to replace the infotainment main unit.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
