2 recalls listed by Transport Canada for this model year

Other

2019420 21 Aug 2019

Issue: This recall is for aftermarket replacement rear window glass produced by Vitro Automotriz. Certain rear window glass may not have been properly tempered. If the window breaks, the glass may separate into large pieces instead of very small ones. Note: This is a voluntary recall that is not being conducted under the requirements of the Motor Vehicle Safety Act. Safety Risk: Glass that breaks in to large pieces could create a risk of injury. Corrective Actions: The company will notify consumers by mail and instruct them to inspect the designation code marked on the rear window glass. Products affected by this recall have the designation "DOT 287" along with the lettering "VMR" (Replacement Market) and a date code that is before July 2019. This information is printed on the bottom corner of the glass. Consumers should contact Vitro's customer service at 1-412-995-6457 or argbacklites@vitro.com to arrange for replacement of the glass.

Tires

2016185 26 Apr 2016

On certain vehicles, the inner sidewall of the affected tires may have been damaged during vehicle assembly. This could result in a loss of air or, in some cases, a rupture during use. If this were to occur, a damaged tire that ruptures or rapidly loses air may result in a loss of vehicle control, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will inspect the tires and replace if necessary.
