2 recalls listed by Transport Canada for this model year

Seats and restraints

2026430 9 Sep 2026

Issue: On certain vehicles, the wireless seat belt reminder system within the rear seat belt buckles may not work correctly. As a result, the rear seat belt status indicators in the instrument panel may incorrectly show that a seat belt is buckled when it's not. Safety Risk: A seat belt reminder that doesn't work correctly could create confusion. Not wearing a seat belt increases the risk of injury in a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect the rear seat belts and replace the wireless rear seat belt buckle(s), as necessary.

Lights and instruments

2026079 20 Feb 2026

Issue: On certain vehicles, a software problem with the integrated trailer module (ITRM) may cause the trailer lights not to work when towing. This problem could also cause the trailer brakes not to work on certain vehicles. Note: This problem would cause a "Trailer brake module fault" message to be displayed and turn signal telltale to flash rapidly. This recall also affects certain Super Duty incomplete vehicles. Safety Risk: Trailer lights that don't work could make the vehicle less visible and cause following drivers not to recognize that the vehicle is braking or intends to turn or change lanes. These issues could increase the risk of a crash. Additionally, a loss of trailer brakes could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the ITRM software. Alternatively, you may schedule an appointment to have the update performed at a Ford dealership.

Listed for the model year, not checked against your VIN. Ford confirms which apply.

Check your VIN with Ford Canada or call a Ford dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN	[4] Cardog market quote, same configuration, 13 live listings, as of 30 Oct 2026
[2] Transport Canada recall database, listed for the model year	[5] Live public dealer listings on Cardog, as of 30 Oct 2026
[3] NHTSA recall records (United States), listed for the model year	

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
