4 recalls listed by Transport Canada for this model year

- Steering** 2025144 20 Mar 2025
Issue: On certain vehicles, a problem with the power steering system could cause it to turn off while driving. The power steering assist may return when the vehicle is restarted. Note: This is an expansion of recall N182182760 (Transport Canada recall no. 2019-056). Safety Risk: A loss of power steering assist would result in a sudden increase in steering effort, especially at low vehicle speeds. This could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to replace the power steering gear assembly.
- Steering** 2020291 25 Jun 2020
Issue: On certain vehicles, the bolts that attach the electric power steering assist motor to the steering gear may corrode and break. This could cause a loss of power steering assist. Safety Risk: A loss of power steering assist may result in a sudden increase in steering effort, especially at low vehicle speeds. This could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and instruct you to take your vehicle to a dealer to replace the bolts that attach the electric power steering motor and apply a protective wax coating. If the bolts cannot be removed due to corrosion, the steering gear will be replaced.
- Steering** 2019056 8 Feb 2019
Issue: A problem with the power steering system could cause it to turn off while driving. The power steering assist may return when the vehicle is restarted. Safety Risk: A loss of power steering assist would result in a sudden increase in steering effort, especially at low vehicle speeds. This could increase the risk of a crash. Corrective Actions: The company will notify owners by mail. Owners will be instructed to take their vehicle to a dealer to have the power steering gear assembly replaced.

Steering

2018463 30 Aug 2018

On certain vehicles originally sold or currently registered in areas of heavy road salt usage during winter months (Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland & Labrador), the bolts that attach the electric power steering assist motor to the steering gear housing may corrode and break. This could cause a loss of power steering assist. The resulting increase in steering effort could create the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace the mounting bolts and apply a corrosion protection coating to the gear housing and bolts. If the bolts bolt cannot be removed, a replacement steering gear will be installed.

Listed for the model year, not checked against your VIN. Chevrolet confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
