1 recall listed by Transport Canada for this model year

Steering

2025144 20 Mar 2025

Issue: On certain vehicles, a problem with the power steering system could cause it to turn off while driving. The power steering assist may return when the vehicle is restarted. Note: This is an expansion of recall N182182760 (Transport Canada recall no. 2019-056). Safety Risk: A loss of power steering assist would result in a sudden increase in steering effort, especially at low vehicle speeds. This could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to replace the power steering gear assembly.

Listed for the model year, not checked against your VIN. Chevrolet confirms which apply.
