1 recall listed by Transport Canada for this model year

Electrical

2014480 29 Oct 2014

Certain vehicles may fail to conform to Canada Motor Vehicle Safety Standard (CMVSS) 114 - Theft Protection and Rollaway Prevention. An intermittent ground electrical connection could cause the vehicle to continue to run for a limited time period after the ignition is turned off if the brake lamps, park lamps or trunk lamp are on. This would also cause delayed arming of the immobilization system, contrary to the requirements of the standard. Correction: A production change has been undertaken to remedy this technical non-compliance condition. No corrective recall action is required as the technical non-compliance conditions are deemed to be non-safety related.

Listed for the model year, not checked against your VIN. Buick confirms which apply.
