§1 IDENTITY [1]

Model year	2003	Engine	2.2 L, 4 cylinders
Make	Saturn	Fuel	Gasoline
Model	Ion	Drive	Not in the decode
Trim	Not in the decode	Maker	GENERAL MOTORS LLC
Body	Sedan	Plant	Spring Hill, Tennessee, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/saturn/ion/2003

6 recalls listed by Transport Canada for this model year

Other 2014126 10 Apr 2014

On certain vehicles, a defect may allow the ignition key to be removed from the ignition switch when the key is not in the "Off" position. This could result in unintended vehicle movement if the transmission is not in the "park" position (automatic transmission) or not in the reverse gear with the parking brake engaged (manual transmission), and increase the risk of a crash causing injury and/or property damage. Correction: Dealers will replace the ignition lock cylinder and/or ignition key.

Electrical 2014060 26 Feb 2014

On certain vehicles, a defect in the ignition switch could allow the switch to move out of the "run" position if the key ring is carrying added weight and the vehicle goes off-road or is subjected to some other jarring event. The timing of the key movement out of the "run" position, relative to the activation of the sensing algorithm of the crash event, may result in the airbags not deploying, increasing the risk of injury. Correction: Dealers will replace the ignition switch. Note: Until the correction is performed, all items should be removed from the key ring. Note: This is an expansion of recall 2014-038.

Steering 2010447 16 Dec 2010

Certain vehicles equipped with electric power steering may experience a sudden loss of power steering assist that could occur at any time while driving. If the power steering assist is lost, a message is displayed on the Driver Information Centre and a chime sounds to inform the driver. Typically, at the next ignition cycle, power assist is regained and the Driver Information Centre message will be off. Steering control can be maintained, as the vehicle will revert to a manual steering mode, but would require greater driver effort at low vehicle speeds, which could result in a crash causing property damage and/or personal injury. Correction: Vehicles will receive a special extended warranty coverage of 10 years/240,000 km from first registration. Under this special coverage program, vehicles which experience this condition will have the electric power steering motor replaced.

Lights and instruments

2004401 17 Nov 2004

On certain vehicles, the turn signal/daytime running lamp (DRL) bulb on either front side can become inoperative because of inadequate contact between the bulb and socket. If a front turn signal lamp is inoperative, others may react slowly to a turning vehicle and a crash could occur. Correction: Dealers will replace the DRL/turn signal bulb on both the left and right front side.

Fuel system

2003345 23 Dec 2003

On certain vehicles, the fuel filter assembly may corrode prematurely on the exterior surface. If corrosion on the exterior surface of the fuel filter assembly progresses to the point of creating a hole in the shell, fuel droplets would form and drop to the ground. There would be a noticeable fuel odour around the vehicle. If an ignition source is present, a fire could result. Correction: Dealers will replace the fuel filter assembly.

Electrical

2003344 23 Dec 2003

Certain vehicles do not comply with the requirements of CMVSS 118. The power windows and/or sunroof may be operable after the ignition has been turned to the "OFF" position and the front passenger door is opened. If unsupervised children are left unattended in the vehicle and operate the power windows or sunroof, there is an increased risk of personal injury to the child. Correction: Dealers will upgrade the Body Control Module (BSM) calibration.

Listed for the model year, not checked against your VIN. Saturn confirms which apply.

Check your VIN with GM Canada or call a Saturn dealer with your VIN.

§5 DOCUMENTS

Window sticker This VIN reads as model year 2003, before our coverage for this manufacturer.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 1 live listings, as of 27 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [5] Live public dealer listings on Cardog, as of 27 Oct 2026 |
| [3] NHTSA recall records (United States), listed for the model year | |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
