Make	Chevrolet	Fuel	Gasoline
Model	Colorado	Drive	4WD
Trim	Work Truck	Maker	GENERAL MOTORS LLC
Body	Pickup	Plant	Wentzville, Missouri, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/chevrolet/colorado/2015

6 recalls listed by Transport Canada for this model year

Steering 2021181 25 Mar 2021

Issue: On certain trucks, a poor electrical connection could cause a sudden loss of power steering assist. Note: This recall does not include vehicles that were repaired under Transport Canada Recall 2016-043. Safety risk: A loss of power steering assist may result in a sudden increase in steering effort, especially at low vehicle speeds. This could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and instruct you to take your truck to a dealer to replace the steering gear torque sensor cover assembly.

Airbag 2017481 5 Oct 2017

On certain vehicles, the second stage of the driver frontal airbag may not deploy properly in certain high speed crashes. If the vehicle were to be involved in a high speed crash that triggers the second-stage deployment of the driver frontal airbag, the second stage of the inflator may not fill the airbag as completely and as quickly as designed, which could increase the risk of injury to the driver. Correction: Dealers will replace the driver frontal airbag module. Note: This is an expansion of recall 2016-102

Steering 2016043 28 Jan 2016

Certain vehicles may experience a sudden loss of electric power steering assist due to a poor electrical connection within the torque-sensor harness connector. Steering control can be maintained, as the vehicle will revert to a manual steering mode, but will require greater driver effort. The sudden change in steering may increase the risk of a crash causing injury and/or property damage. Correction: Dealers will replace steering gear pinion sensor cover assembly. Note: If the power steering assist is lost, a message is displayed on the Driver Information Centre and a chime sounds to inform the driver.

Brakes

2015192 11 May 2015

On certain vehicles, the front brake calipers could leak brake fluid. This could cause longer brake pedal travel and increased stopping distances, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will inspect and if necessary replace the front brake calipers.

Seats and restraints

2015185 6 May 2015

Certain vehicles may fail to comply with the requirements of Canada Motor Vehicle Safety Standard 207 – Anchorage of Seats. Certain seat-frame attachment hooks that secure the front driver and/or front passenger's seat may not have been properly attached to the vehicle body during the assembly process. If this condition were present, the seat could fail to meet the requirements of the standard. This could increase the risk of injury in a crash. Correction: Dealers will inspect seats for proper installation, and if required, disassemble and properly reassemble the seats.

Airbag

2014451 15 Oct 2014

Certain vehicles may not comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 208 – Occupant Protection. During the manufacturing process, the driver's airbag connection may have been wired incorrectly. This would affect the vehicles' two-stage airbag system by reversing the deployment sequence and disrupting the deployment timing of the driver airbag stages. This could result in the driver airbags to not function as designed, which could increase the potential for injury to the seat occupant in a crash. Correction: Dealers are to reprogram the inflatable restraint sensing and diagnostic module (SDM).

Listed for the model year, not checked against your VIN. Chevrolet confirms which apply.

Check your VIN with Chevrolet Canada or call a Chevrolet dealer with your VIN.

Window sticker This VIN reads as model year 1985 or 2015, before our coverage for this manufacturer.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 8 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |
| [3] NHTSA recall records (United States), listed for the model year | |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
