Body	Sport Utility Vehicle	Plant	Janesville, Wisconsin, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/gmc/yukon/1999

2 recalls listed by Transport Canada for this model year

Electrical

2001263 1 Nov 2001

Certain vehicles: Light duty trucks. passenger vehicles and sport utility vehicles. Certain vehicles do not comply with the requirements of C.M.V.S.S. NO. 118, "POWER-OPERATED WINDOW, PARTITION & ROOF PANEL SYSTEMS." When the hazard flasher switch is used to turn the hazard flashers on or off, the retained accessory power (RAP) feature can be activated without a key in the ignition. Correction: There is no detrimental effect on vehicle safety so no corrective action is necessary.

Brakes

2000270 17 Nov 2000

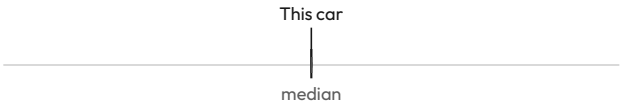

On certain vehicles, the body cross sill may contact the front, right-hand brake pipe. This could eventually wear a hole in the brake pipe over the normal life of the vehicle and result in a brake fluid leak. This could ultimately result in a partial brake system failure and increased stopping distances. Correction: Dealers will inspect for brake pipe wear and replace worn section if necessary. A spacer clip will be installed to ensure adequate clearance.

> Listed for the model year, not checked against your VIN. GMC confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
