## §2 OBLIGATIONS [2]

[cardog.app/tools/recalls/gmc/sierra-hd/2026](https://cardog.app/tools/recalls/gmc/sierra-hd/2026)

### 1 recall listed by Transport Canada for this model year

#### Fuel system

2026102 5 Mar 2026

Issue: On certain trucks, a software problem could cause the fuel system to stop transferring fuel from the secondary fuel tank to the primary fuel tank. Additionally, the fuel gauge may indicate an incorrect combined fuel level. If this happens, you may not be aware of the low fuel level and the engine could stall. Note: This recall only affects certain 3500 HD models equipped with a gasoline engine and dual fuel tanks. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the engine control module software. Alternatively, you may schedule an appointment to have the update performed at a GM dealership.

Listed for the model year, not checked against your VIN. GMC confirms which apply.

Check your VIN with GMC Canada or call a GMC dealer with your VIN.

## STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
