cardog.app/tools/recalls/honda/accord/2024

4 recalls listed by Transport Canada for this model year

Other

2026274 4 Jun 2026

Issue: On certain vehicles, if the tire repair kit nozzle is not properly attached to the tire valve, pressure could build up in the sealant bottle. As a result, excessive pressure could cause the bottle cap to detach. Safety Risk: If the bottle cap detaches, it could increase the risk of injury. Corrective Actions: Honda will notify owners by mail and advise you to take your vehicle to a dealership to replace the nozzle on the tire repair kit. If the sealant bottle has been previously used, it will be replaced.

Powertrain

2025625 14 Nov 2025

Issue: Under certain conditions, a software problem could cause the integrated control module to reset. If this happens, there would be a loss of power to the wheels. Safety Risk: A sudden loss of power to the wheels could increase the risk of a crash. Corrective Actions: Honda will notify owners by mail and advise you to take your vehicle to a dealership to update the integrated control module software.

Fuel system

2024606 15 Oct 2024

Issue: On certain vehicles, the high-pressure fuel pump may not have been manufactured properly. As a result, the fuel pump could crack and leak fuel. Safety Risk: A fuel leak can create the risk of a fire. Corrective Actions: Honda will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the high-pressure fuel pump.

Seats and restraints

2023623 22 Nov 2023

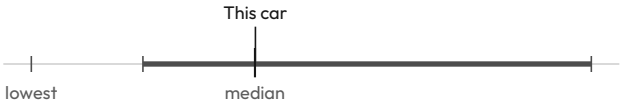

Issue: On certain vehicles, the seat belt pretensioner(s) may be missing a rivet. As a result, the seat belt pretensioner(s) may not work properly in a crash. Note: On Accord models, only the driver's side pretensioner could be affected. On HR-V models, both the driver's and passenger's side pretensioners could be affected. Safety Risk: A seat belt pretensioner that doesn't work properly could increase the risk of injury in a crash. Corrective Action: Honda will notify owners by mail and advise you to bring your vehicle to a dealership to inspect the seat belt pretensioner(s). If a rivet is missing, the pretensioner will be replaced.

Listed for the model year, not checked against your VIN. Honda confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 25 live listings, as of 25 Nov 2026

[5] Live public dealer listings on Cardog, as of 25 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
