Other

2026274 4 Jun 2026

Issue: On certain vehicles, if the tire repair kit nozzle is not properly attached to the tire valve, pressure could build up in the sealant bottle. As a result, excessive pressure could cause the bottle cap to detach. Safety Risk: If the bottle cap detaches, it could increase the risk of injury. Corrective Actions: Honda will notify owners by mail and advise you to take your vehicle to a dealership to replace the nozzle on the tire repair kit. If the sealant bottle has been previously used, it will be replaced.

Powertrain

2025625 14 Nov 2025

Issue: Under certain conditions, a software problem could cause the integrated control module to reset. If this happens, there would be a loss of power to the wheels. Safety Risk: A sudden loss of power to the wheels could increase the risk of a crash. Corrective Actions: Honda will notify owners by mail and advise you to take your vehicle to a dealership to update the integrated control module software.
