### 1 recall listed by Transport Canada for this model year

#### Electrical

2016150 7 Apr 2016

On certain vehicles equipped with a V6 engine, the starter motor wiring harness may have been installed in an incorrect position. This could cause the wiring harness to come in contact with the starter heat shield resulting in an electrical short, which would increase the risk of fire causing injury and/or damage to property. Correction : Dealers will inspect and reposition the wiring harness as necessary.

Listed for the model year, not checked against your VIN. Nissan confirms which apply.
