2 recalls listed by Transport Canada for this model year

Label 2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Brakes 2024097 15 Feb 2024

Issue: On certain vehicles, the parking brake may not have been adjusted correctly. As a result, the vehicle could roll when the parking brake is set. Safety Risk: A parked vehicle that moves suddenly could increase the risk of an injury or a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to properly adjust the parking brake.
