Trim	SXT	Maker	FCA CANADA INC.
Body	Coupe	Plant	Brampton, Ontario, Canada

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/dodge/challenger/2017

4 recalls listed by Transport Canada for this model year

Label	2024548	15 Aug 2024
Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.		
Engine	2018269	17 May 2018
On certain vehicles, an electronic fault may create a situation where the cruise control cannot be deactivated. If this occurs and the driver does not apply the brakes or shift the transmission to neutral, the vehicle could maintain speed or accelerate without warning, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will inspect the Powertrain Control Module (PCM) software and perform an update as necessary. Note: In the interim, owners are advised not to use the cruise control until the vehicle is repaired.		
Engine	2017387	9 Aug 2017
On certain vehicles equipped with the Hellcat engine, the engine oil cooler line could separate at the crimp of the hose to the aluminum tube. This could lead to a rapid loss of engine oil which could spray on the windshield impairing visibility, cause engine seizure and/or, in the presence of an ignition source, increase the risk of fire. These conditions could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace the engine oil cooler lines.		

Powertrain

2017335 7 Jul 2017

Certain vehicles equipped with a 5.7L V8 engine and a 8HP70 automatic transmission may not maintain a mechanical PARK when the shift lever is moved in the PARK position and the engine is left running. If the operator exits the vehicle in this condition, the vehicle could roll away, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will re-flash the Transmission Control Module (TCM) with an updated software.

Listed for the model year, not checked against your VIN. Dodge confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
