Issue: On certain vehicles, the side curtain airbag(s) may not have been manufactured properly. As a result, the airbag(s) may not inflate properly in a crash. Note: This is an expansion of Transport Canada recalls 2025-291 and 2025-454. Safety Risk: A side curtain airbag that doesn't work properly could increase the risk of injury in a crash. Note: This recall only affects certain Q'Straint QRT-DELUXE and QRT-MAX wheelchair retractors with the part number Q8-6200 or Q8-6209. Safety Risk: A wheelchair that moves in a crash could increase the risk of injury. Corrective Actions: To reduce the safety risk, Vantage Mobility recommends you confirm the wheelchair is secured properly by attempting to move it before driving until the recall repairs have been completed. Vantage Mobility will notify owners by mail and advise you to take your vehicle to a Vantage Mobility service center to inspect and, if necessary, replace the wheelchair retractor(s).
