## §2 OBLIGATIONS [2]

cardog.app/tools/recalls/dodge/grand-caravan/2015

**8** recalls listed by Transport Canada for this model year

### Other

2019420 21 Aug 2019

Issue: This recall is for aftermarket replacement rear window glass produced by Vitro Automotriz. Certain rear window glass may not have been properly tempered. If the window breaks, the glass may separate into large pieces instead of very small ones. Note: This is a voluntary recall that is not being conducted under the requirements of the Motor Vehicle Safety Act. Safety Risk: Glass that breaks in to large pieces could create a risk of injury. Corrective Actions: The company will notify consumers by mail and instruct them to inspect the designation code marked on the rear window glass. Products affected by this recall have the designation “DOT 287” along with the lettering “VMR” (Replacement Market) and a date code that is before July 2019. This information is printed on the bottom corner of the glass. Consumers should contact Vitro's customer service at 1-412-995-6457 or argbacklites@vitro.com to arrange for replacement of the glass.

### Seats and restraints

2018439 21 Aug 2018

On certain wheelchair-accessible vehicles, the bolts used to attach the removable seats to the floor may contain a defect and could break in the event of a crash, creating a risk of injury. Correction: Dealers will replace the defective bolts.

### Accessories

2017663 22 Dec 2017

On certain vehicles equipped with the Roadside Emergency Kit containing a Kidde fire extinguishers with black plastic handles and valves, the fire extinguishers may become clogged or require excessive force to activate. Also, the nozzle may detach from the valve assembly with enough force that it could cause injury, and fail to discharge. In case of fire, failure of the extinguisher to function could result in injury and/or property damage. Correction: Dealers will replace the suspect Kidde fire extinguisher with a new Kidde fire extinguisher with a steel nozzle. For more information about recalled fire extinguishers, please visit <a href="https://inmarmarketaction.com/kidde/Kidde284CA/">www.kidde.com</a>.

### Fuel system

2016575 17 Nov 2016

On certain Amerivan 10 wheelchair accessible vehicles built on Dodge Grand Caravan and Chrysler Town and Country platforms, the crimp fasteners used to retain fittings in the fuel line may not be fully crimped or compressed. This could result in a fuel leak. Leaking fuel, in the presence of an ignition source, could lead to a fire causing injury and/or damage to property. Correction: Dealers will inspect fasteners and crimp the fasteners further to ensure they are fully compressed and seated.

### Powertrain

2016306 14 Jun 2016

On certain vehicles, a defect may cause the transmission pump rotor to seize or break, resulting in a loss of transmission pressure. This could result in a loss of motive power which, in conjunction with traffic and road conditions, and the driver's reactions may increase the risk of a crash causing injury. Correction: dealers will replace the transmission pump assembly.

### Brakes

2016130 23 Mar 2016

On certain vehicles, the left front brake caliper may have been cast from an incorrect material during manufacturing. This could cause the brake caliper to possibly crack under an extreme braking application. This could affect vehicle control and increase stopping distances, which could increase the risk of a crash causing injury and/or property damage. Correction: Dealers will inspect the front left caliper date code and replace the caliper if it is from the suspect casting date.

### SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 51 live listings, as of 17 Nov 2026
[5] Live public dealer listings on Cardog, as of 17 Nov 2026

### STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
