cardog.app/tools/recalls/pontiac/torrent/2007

2 recalls listed by Transport Canada for this model year

Airbag 2007262 9 Aug 2007

On certain vehicles, the passenger sensing system may fail to detect a small adult occupying the right front seat due to an error in seat sensor calibration. In the event of a crash severe enough to activate the airbags, the front passenger airbag may not deploy. This could increase the occupant's risk of injury. In addition, this condition can prevent the airbag from turning off when the seat is occupied by a small child. In the event of a crash, the front airbag could deploy and the child could be killed or seriously injured by the airbag. Correction: Dealers will reprogram the seat's electronic control unit (ECU).

Other 2007194 14 Jun 2007

Certain vehicles fail to conform to CMVSS 212 - Windshield Mounting. The windshield, liftgate glass and side stationary glass may not be properly secured to the vehicle body due to incorrect primer used during glass installation process. As a result, the windshield may not be retained during a frontal crash or rollover. Correction: Dealers will replace the windshield, liftgate glass and side stationary glass.

Listed for the model year, not checked against your VIN. Pontiac confirms which apply.

Check your VIN with GM Canada or call a Pontiac dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
