1 recall listed by Transport Canada for this model year

Steering

2016086 22 Feb 2016

On certain vehicles, a circuit board in the power-steering assist's power module could fail and could result in a sudden loss of electric power steering while driving. Steering control can be maintained, as the vehicle will revert to a manual steering mode, but will require greater driver effort. The sudden change in steering effort may increase the risk of a crash causing injury and/or property damage. Correction: Dealers will replace the electric belt drive rack and pinion steering gear assembly.

Listed for the model year, not checked against your VIN. Buick confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
