3 recalls listed by Transport Canada for this model year

Airbag 2026246 21 May 2026

Issue: On certain vehicles, the driver-front airbag inflator could rupture when the airbag deploys in a crash. If this happens, the airbag may not properly inflate and metal fragments could be propelled toward vehicle occupants. Safety Risk: An airbag inflator that ruptures can create a risk of injury or death. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to replace the driver-front airbag module.

Airbag 2015481 16 Oct 2015

On certain vehicles, front seat-mounted side impact airbag modules may contain a defect which, in the event of an airbag deployment, can cause airbag inflator components to separate and be propelled into the interior compartment, possibly striking occupants. It is also possible that the airbag may inflate only partially, or not at all, in the event of a crash. If the airbag components separate and are propelled into the interior compartment during deployment in a crash, or the airbag does not inflate, there may be an increased risk of injury to vehicle occupants. Correction: Dealers will replace affected side airbag modules.

Brakes 2014380 9 Sep 2014

Certain vehicles fail to comply with the requirements of Canada Motor Vehicle Safety Standard 135 - Brake Systems. The electronic parking brake may not fully release, which could cause the brakes to drag. In this condition, the parking brake indicator also may not illuminate even though the parking brake is engaged, contrary to the requirements of the standard. Brake drag could affect vehicle acceleration and cause undesired deceleration, excessive brake heat, and premature wear to some brake components. If the brake drag is significant or if the vehicle is operated for an extended period of time in this condition, there is a potential for the rear brakes to generate significant heat, smoke and sparks. Correction: Dealers will update the electronic parking brake software.

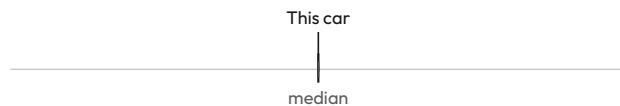

Listed for the model year, not checked against your VIN. Cadillac confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN	[4] Cardog market quote, same model year, 1 live listings, as of 28 Oct 2026
[2] Transport Canada recall database, listed for the model year	[5] Live public dealer listings on Cardog, as of 28 Oct 2026
[3] NHTSA recall records (United States), listed for the model year	

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
