Body	Minivan	Plant	Windsor, Ontario, Canada

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/volkswagen/routan/2010

3 recalls listed by Transport Canada for this model year

Electrical 2014266 2 Jul 2014

On certain vehicles, the Wireless Ignition Node (a.k.a ignition switch) may allow the ignition key to inadvertently move from the ON position to the accessory (ACC) position while driving, causing the engine to shut off. This would result in a loss of motive power, power steering and power brakes, and would disable the airbags as well as other supplemental restraint systems (SRS). Increased steering and braking effort and a loss of motive power could increase the risk of a crash causing injury and/or damage to property. Loss of airbag / SRS function in a crash that warrants airbag deployment and/or other supplemental restraint system function could increase the risk of injury to vehicle occupants. Correction: Dealers will inspect the WIN module and install a secondary detent system if required. Note: This recall is an expansion of recall 2011095.

Structure 2014031 3 Feb 2014

On certain vehicles modified for wheelchair accessibility by the Liberty Motor Company Inc., the rear axle may fracture due to a combination of corrosion damage and operation on rough roads. If the rear axle fractures, vehicle handling may be adversely affected, creating the risk of a crash and increasing the risk of injury and/or property damage. Correction: Freedom Motors assigned service shops will inspect axles and reinforce or replace as necessary.

Other 2011095 2 Mar 2011

On certain vehicles, the Wireless Ignition Node (a.k.a ignition switch) may allow the ignition key to inadvertently move from the ON position to the accessory (ACC) position while driving, causing the engine to shut off. Loss of propulsion, in conjunction with traffic and road conditions, and the driver's reactions, could increase the risk of a crash causing property damage and/or personal injury. Correction: Dealers will replace the WIN module.

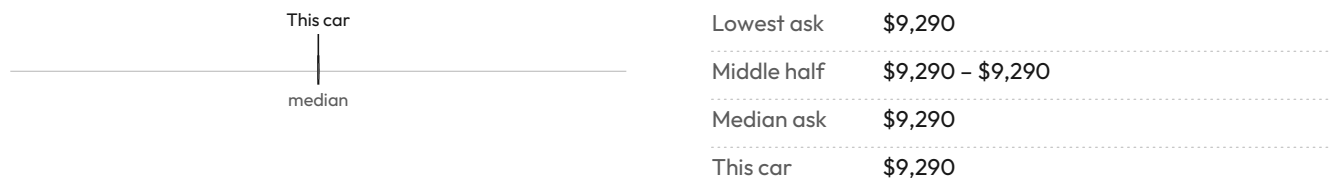

Listed for the model year, not checked against your VIN. Volkswagen confirms which apply.
Check your VIN with Volkswagen Canada or call a Volkswagen dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
